

ExCellerate Media

for Immune Cell Culture

ExCellerate Human T Cell Expansion Media, Xeno-Free

- Robust T cell expansion **under Serum-free and Xeno-free conditions**
- Compatible with a variety of T cell activation methods
- Supports T cell expansion from PBMCs or purified CD3+ T cells

Catalog#
CCM030

Size
500mL

ExCellerate Human NK Cell Expansion Media, Xeno-Free

- Robust NK cell expansion **under Serum-, Feeder-, and Xeno-free conditions**
- Compatible with a variety of NK cell activation method
- Supports NK cell expansion from PBMCs

Catalog#
CCM032

Size
500mL

ExCellerate B Cell Media, Xeno-Free

- Robust B cell expansion under **Xeno-free conditions**
- Facilitates the **isolation and expansion of B cells** from peripheral blood
- Compatible for culturing B cells from multiple species
- Supports target antigen-specific B cell clonogenicity
- Supports culture of mouse B cell hybridoma cell lines **for antibody production**

Catalog#
CCM031

Size
500mL
