

# SpectraMax<sup>®</sup> DuoLuc<sup>™</sup> Reporter Assay kit

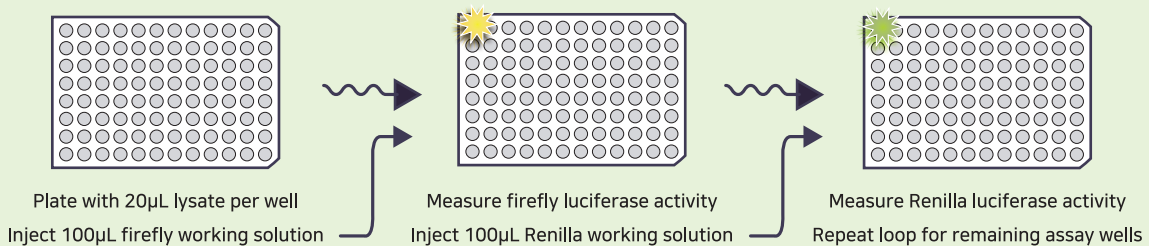

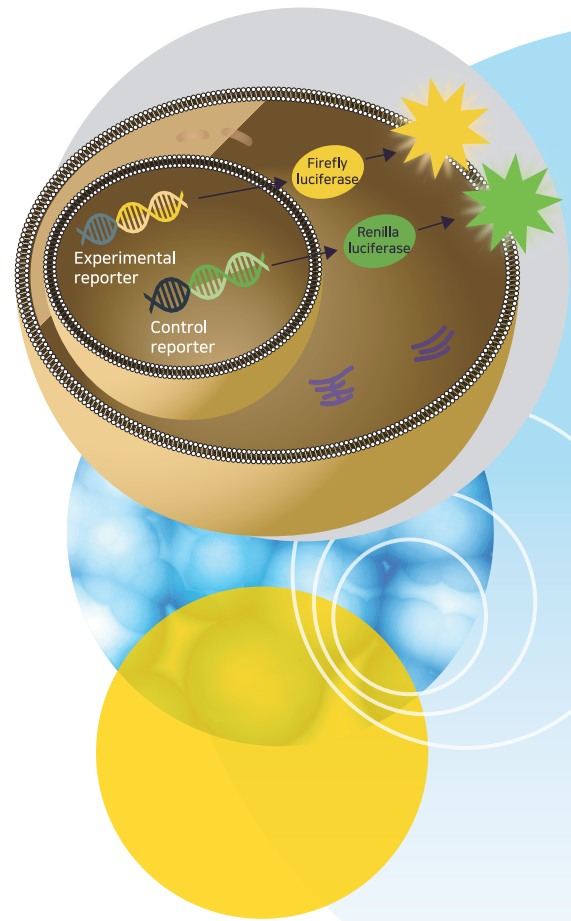

## Dual-Luciferase Kit

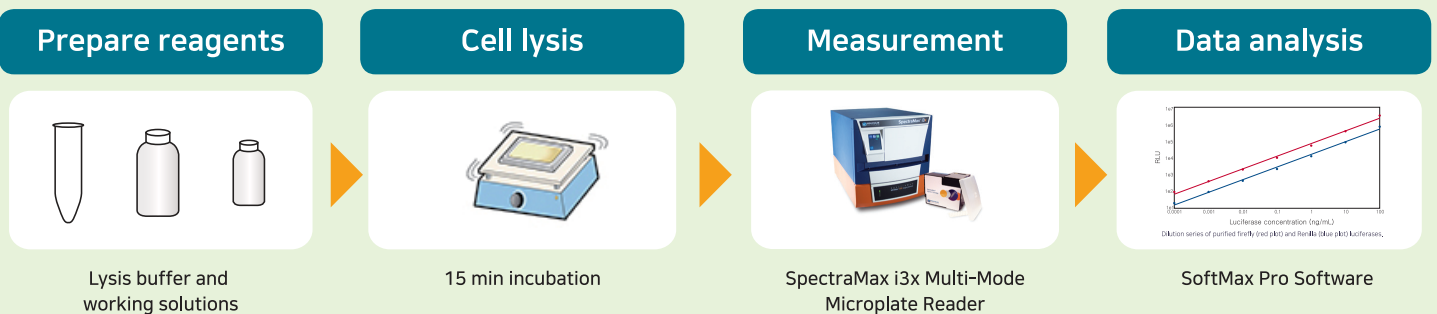

### Order information

Cat.#	Size
#R8360	50 reactions
#R8361	200 reactions
#R8362	1000 reactions

- Reasonable Price
- High Sensitivity
- Linearity
- Ready to use 1X passive lysis buffer
- Simple workflow

\*Assay with 96-well microplate.

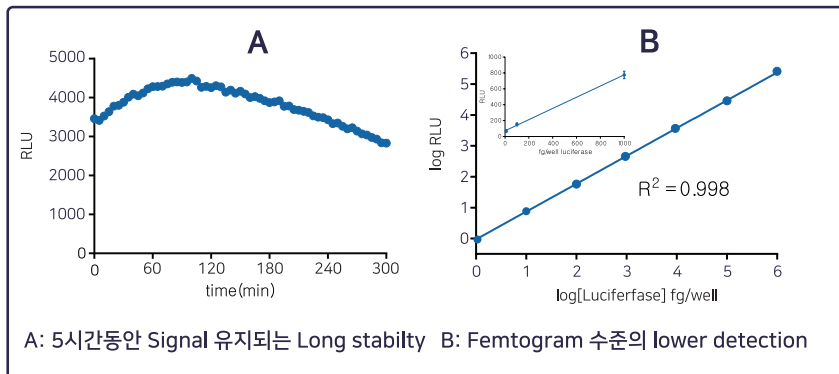

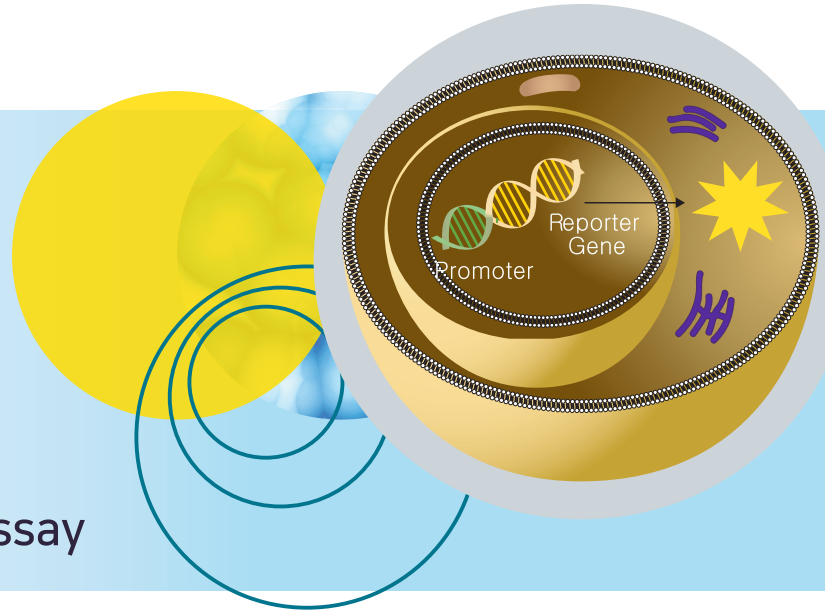

\*Representative experimental workflow for dual luciferase assay.

# SpectraMax<sup>®</sup> Glo Steady-Luc Reporter Assay kit

## Glo Steady Luciferase Assay

- Reasonable Price
- High Sensitivity
- Linearity
- Long half-life over 3hrs
- Simple workflow
- Glow - type luminescence assay

### Order information

Cat. #	Size
#R8352	96well plates 2개 분량
#R8353	96well plates 10개 분량

## Luciferase Assay를 이용할수 있는 장비들

### SpectraMax iD5

- 광범위한 Luminescence Signal Window 제공 및 Absorbance, TRF, FP Fluorescence, 그리고 Western Blot Scanning 가능

- Optimized for DLR assay (타사 Kits 호환가능)
- Low dead volume (Substrate 절약효과)
- Smart injection
- NFC 기능을 통한 쉬운 실험 진행

### SpectraMax L

- 광범위한 Luminescence Signal Window (9 log 이상)제공
- 타사 Kit 호환가능

- Photon Counting, Auto Range, Analog, Max Range 와 같은 다양한 PMT mode 제공
- Softmax Pro를 이용한 간단한 기기 사용 및 유지 보수 가능
